

Yuting Yang

CSIRO Land and Water, Canberra, Australia

Dr Yuting Yang is a research fellow at CSIRO Land and Water (Canberra, Australia). Dr Yang obtained his Ph.D. from the Department of Hydraulic Engineering, Tsinghua University (Beijing, China) in 2013 and worked as a postdoctoral research fellow in Flinders University (Adelaide, Australia) prior to joining CSIRO in 2015. Dr Yang's research interest mainly involves understanding the mass (primarily water and carbon) and energy exchanges at the soil-plant-atmospheric interfaces and the interactions between hydrology, ecology and the global environmental changes. Over the past five years, Dr Yang's researches have led to >30 journal papers, >15 conference presentations and 1 book. Dr Yang is a member of AOGS, AGU and EGU, and serves as an Associate Editor for Journal of Hydrology.
