

Bruce MALAMUD

*Professor of Natural & Environmental Hazards Department of Geography,
King's College London*

Bruce D. Malamud (PhD) is Professor of Natural & Environmental Hazards in the Department of Geography, King's College London, UK. Bruce is a geophysicist with research that includes landslides, earthquakes, floods, wildfires and multi-hazard interactions. He uses a variety of methods in his research, including time series analyses, visualization, confronting models with data, archival data, and communications of science to user groups. Bruce currently has research projects in developing countries, has >5800 citations to his research, is currently executive editor of the journal *Natural Hazards and Earth System Sciences*, and as a past high-school teacher, has keen interest in outreach to secondary school teachers and students
