About AOGS

www.asiaoceania.org

The Asia Oceania Geosciences Society, or AOGS for short, is an international society established since 2003; formed by like-minded individuals to promote geophysical science and public benefits for Asia and Oceania.

Its mission is to promote geophysical science for the benefit of humanity in Asia and Oceania.

Our society participates actively and advances in this field through publications and developing close connections with local and regional societies.

We strive to remain in touch with and contribute to the geophysical world community through cooperation with JpGU, EGU and IUGG.
