

## **Biography**

Dr. Jian Lin is a senior scientist and Henry Bigelow Chair for Excellence in Oceanography at the Woods Hole Oceanographic Institution, collaborating extensively with researchers and students in Asia. He has co-led and joined multiple international ocean expeditions to investigate mid-ocean ridges, hotspots, hydrothermal vents, deep-trench earthquakes, and tsunamis. He also studies earthquake stress interaction and was recognized by the Institute for Scientific Information as one of the most cited earthquake researchers. Dr. Lin was Chair of the InterRidge International Science Program and is a fellow of the Geological Society of America and American Association for the Advancement of Science.
