

Joseph Grebowsky

National Aeronautics and Space Administration (NASA)

Professor Grebowsky is an Astrophysicist at NASA / Goddard Space Flight Centre and is currently NASA's Project Scientist for the Mars MAVEN mission. He has published widely on ionospheric radio sounding, the Earth's thermosphere/ionosphere, ionosphere-magnetosphere coupling, Venus/Mars ionospheric/atmospheric/magnetospheric physics, Venus lightning, spacecraft plasma environments, meteoric ion and neutral species layers at Earth and other planets.
