

James MOORE

Nanyang Technological University

James Moore is a geoscientist with interests in earthquakes, volcanoes, and planetary formation. James is a Research Fellow in the Earth Observatory of Singapore (EOS) and lectures in the Asian School of the Environment (ASE) at Nanyang Technological University (NTU). Before moving to NTU, James received his doctorate from the University of Oxford. James uses computational methods and an interdisciplinary approach to tackle some of the big questions in geophysics, such as why we have earthquakes, and where did the water on Mars go?
